Create reports for different companies, like AcriColor, YPFB, ENTEL, all in Bolivia, we travel to Chile for developing more functionalities in AcriColor company, and Argentina to the something to develop reports and mor functionalities using Dynamic AX 2010 ERP.

- Tools communication:
- Skype
- Tools code Versioning:
- TFS (Team Foundation Server)
- Tools Reporst Management:
- SQL server 2008

- Analysis Management
- c #
- Tools development:
- Visual Studio 2008
- Tools Connection API:
- WCF(window communication foundation)

Software Project

Personal Web Page   https://ngelrojasp.com

App My Card(My-Card) coming soon

the App Android create personal cards the easy way, to share with other persons

- Development an App Android using Flutter that allows users to easily create personal card, to share with their friend and other people.
- Utilized django rest framework, Docker, swagger, Graphql and postgreSQL

Learn to Read(Learn-to-Read) coming soon

the web page where you can learn to read, using patterns like "pomodoro" technique and anothers techniques.

- Development in reactjs to the front end that allows users to easily learn
- integrated with tensorflow.js to ready data to analysed
- Utilized clojure, compojure, ring, swagger and mongoDB

Skills

Programming Language

- Python   (Proficient)
- php   (Proficient)
- javascript   (Advanced)
- c   (Advanced)
- c++   (Advanced)
- Rust   (Basic)
- WebAssembly   (Basic)

Programming Framework Back End

- Django   (Proficient)
- Django rest Framework   (Proficient)
- Flask   (Proficient)
- Laravel   (Advanced)

- Express NodeJS   (Advanced)
- ASP.net   (Intermediate)
- Yii 2   (Intermediate)

Programming Framework Front End

- React JS   (Advanced)
- Vue JS   (Basic knowledge)

Programming Language FP(functional programming)

- Clojure   (Intermediate)

Programming Language FP (functional programming) Front end

- Elm   (Basic)

Programming Mobiles App

- Flutter   (Working knowledge)
- Kotlin   (Working knowledge)

Devops

- Docker   (Advanced)
- Kubernets   (Working knowledge)
- jenkins   (Intermediate)
- git   (Proficent)

Data Base

- MySQL   (Proficent)
- PotgreSQL   (Proficient)
- SQL Server   (Advanced)
- MongoDB   (Intermediate)

AWS

- EC2 virtual Machine   (Intermediate)
- RDS for Databases   (Intermediate)
- Lambda Serverless   (Basic knowledge)

Framework AI

- TensorFlow 2.0   (Intermediate)

- TensorFlow.js   (Intermediate)
- OpenCV   (Intermediate)
- Keras   (Intermediate)

Languages

- English   reading written   (Fluent)
- Portuguese   reading written   (advanced)
- French   reading written   (Basic)
